

**AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions and listings of claims in the application:

Claims 1-12 (Cancelled)

13. (Currently Amended) A method for at least one of treatment of obesity, prevention of obesity, treatment of an overweight condition, prevention of an overweight condition, and for at least one of controlling body weight reduction, and prevention of body weight gain, comprising:

administering an effective amount of a fatty acid composition comprising at least one of (all-Z omega-3)-5,8,11,14,17-eicosapentaenoic acid (EPA), or derivatives thereof, and (all-Z omega-3)-4,7,10,13,16,19-docosahexaenoic acid (DHA), or derivatives thereof, or any combinations thereof, to at least one of a human and an animal.

14. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein the weight ratio of EPA:DHA in the fatty acid composition is 1:X, where X is equal or greater than 1.

15. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein the ~~combination of~~ EPA and DHA are present in the composition in an EPA:DHA ratio ranging from about 1:1 to 1:8.

16. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein the fatty acids in the composition ~~is~~ are presented in at least one of esterified form, ethyl ester form, salt form and free acid form, ~~or~~ and any combinations thereof.

17. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein the fatty acid composition ~~is comprised of a combination of~~ comprises EPA and DHA in triglyceride form.

18. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein at ~~least~~ least one of EPA and DHA is obtained from at least one of vegetable, microbial and animal origin~~[[s]]~~.

19. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein at least a part of the EPA and/or DHA is ~~produced~~ obtained from a marine oil, ~~preferably a fish oil~~.

20. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein the composition is administered orally to the at least one of a human and an animal.

21. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein the treatment is carried out together with a reduced intake of calories for the at least one of ~~the a~~ human and an animal.

22. (Currently Amended) ~~[[A]]~~The method according to claim 13, wherein said fatty acid composition is administered in a daily dosage that corresponds to at least 10% of the total lipid content of a daily diet for the at least one of a human or and an animal.

Claims 23-36 (Cancelled)

37. (Currently Amended) A dietary product containing a fatty acid composition comprising at least one of (all-Z omega-3)-5,8,11,14,17-eicosapentaenoic acid (EPA), or derivatives thereof, and (all-Z omega-3)-4,7,10,13,16,19-docosahexaenoic acid (DHA), or derivatives thereof, or any combinations thereof, for at least one of non-

medical treatment of obesity, non-medical treatment of an overweight condition,  
prevention of obesity, prevention of an overweight condition, ~~for an overweight~~  
~~condition, for supporting and controlling at least one of~~ body weight reduction, and  
prevention of body weight gain.

38. (Currently Amended) ~~[[A]]~~The dietary product according to claim 37,  
wherein the weight ratio of EPA:DHA in the fatty acid composition is 1:X, where X is  
equal or greater than 1.

39. (Currently Amended) ~~[[A]]~~The dietary product according to claim 37,  
wherein the DHA is the main active ingredient ~~is DHA~~.

40. (Currently Amended) ~~[[A]]~~The dietary product according to claim 37,  
wherein the dietary product is at least one of a weight-watching product and a slimming  
product.

41. (Currently Amended) ~~[[A]]~~The dietary product according to claim 37,  
wherein the ~~combination of~~ EPA and DHA are present in the composition in an  
EPA:DHA ratio ranging from about 1:1 to 1:8.

42. (Currently Amended) ~~[[A]]~~The dietary product according to claim 37,  
wherein at least one of EPA and DHA is obtained from at least one of vegetable,  
microbial and animal origins ~~or combinations thereof~~.

43. (Currently Amended) ~~[[A]]~~The dietary product according to claim 37,  
wherein the fatty acid composition is ~~produced~~ obtained from a marine oil.

44. (Currently Amended) ~~[[A]]~~The dietary product according to claim 37,  
wherein intake of the dietary product is combined with at least one of a reduced intake  
of calories for a human and physical activity.

45. (Currently Amended) ~~[[A]]The~~ dietary product according to claim 37, wherein said fatty acid composition is administered in a daily dosage that corresponds to at least 10 % of the total lipid content of a daily diet for at least one of a human and an animal.

46. (Currently Amended) ~~[[A]]The~~ dietary product according to claim 37, wherein the dietary product is at least one of a bar, ~~snacks~~ a snack, and a beverage.

47. (Canceled)

48. (Canceled)

49. (Previously Presented) A method for supplementing a dietary product comprising:

adding a fatty acid composition comprising at least one of (all-Z omega-3)5,8,11,14,17-eicosapentaenoic acid (EPA), or derivatives thereof, and (all-Z omega-3)4,7,10,13,16,19-docosahexaenoic acid (DHA), or derivatives thereof, or any combinations thereof, to supplement the dietary product for at least one of prevention of body weight gain and controlling and supporting weight reduction in a human.

50. (Currently Amended) ~~[[A]]The~~ method according to claim 49, wherein the weight ratio of EPA:DHA in the fatty acid composition is 1:X, where X is equal or larger larger than 1.

51. (Currently Amended) ~~[[A]]The~~ method according to claim 49, wherein the fatty acid composition is presented in at least one of liquid form and as an emulsion, being incorporated in ~~the supplement~~ said dietary product.

52. (New) The method according to claim 1, wherein said fatty acid composition is chosen from a supplement, a food supplement, and a nutritional product.
